BONNEVILLE POWER ADMINISTRATION

Preemption and ROFR Procedures

Version 0

TBD

This procedure document provides information for managing Preemption and Right of First Refusal (ROFR) for Short-Term TSRs and reservations.   It is intended as a reference to supplement the policies set forth in draft version 4 of the [Preemption of Short-Term Requests and Reservations business practice](#). Refer to the business practice for full details or submit questions to tblresdesk@bpa.gov.

This document contains Open Access Technology International System (OATI) screenshots that are proprietary and are not to be used outside the context of this document. Do not distribute without specific authorization from OATI.

This reference document is not officially part of the business practice, so it is not part of the comment and response period.   BPA is currently working on this document and will post content as soon as possible.   BPA expects PCM training to start about a month prior to go-live with this document serving as a key training resource.   BPA will of course welcome any feedback on the content of the document once it is posted, but it will not go through an official comment and response process.
